

Southern Cross Stainless Steel

SINK & DRAINERS & BENCH TOP FABRICATION DETAIL

MODEL NO: ARSD & ARBN

MODEL ARBN BENCH TOP

MODEL ARSD SINK & DRAINER

Southern Cross Stainless Steel (commercial, institutional & industrial) sinks & drainers and bench tops are generally fabricated in 1.2mm thick type 304 satin finish stainless steel with all joints welded & polished clean to match adjacent surfaces. The stainless steel is backed with 18mm plywood and when openly exposed sealed with polyester resin coating. All drainers have a built in fall to the bowls.

SUPPORT: When support legs are specified these are fabricated from 32mm square stainless steel tube with adjustable feet. From the top of the leg a 32mm x 6mm wide mild steel treated or stainless steel bar brace is taken back to and down the wall.
